

While on duty in the North Atlantic, the Bangor Class minesweeper H.M.C.S. Guysborough was torpedoed and sunk by a German U-boat. Of her crew of 90, five officers and 48 men died from injuries, drowning and exposure during the 19 black hours they clung to carley floats before a rescue frigate arrived. Shown here are two Winnipeg survivors. Left to right, Stoker 1st Class James S. Donnett and Able Seaman Gordon H. McGregor. Below are the eight Manitoban reported missing.
